

# Save the Date

Breaking Boundaries of Science, Technology, Medicine, Art, and Healthcare Policy

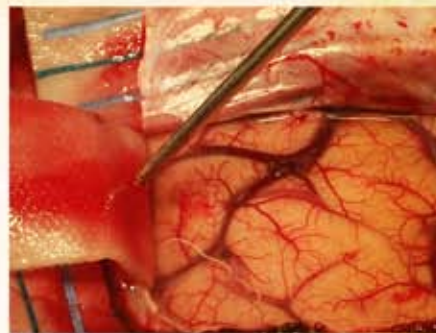

**June 2-4, 2012**

*The Society for Brain Mapping and Therapeutics invites you to join the audience of radiologists, neurologists, neurosurgeons, engineers, neuro-oncologists, neuroscientists, and stem cell scientists for this unique, cutting-edge event*

## 9th Annual World Congress of SBMT

Theme: Nano-Bio-Electronics with an emphasis on Translation, Integration, and Commercialization of Technologies.

### Topics Include

- Autism
- Alzheimers
- Parkinsons Disease
- NeuroOncology
- NeuroRadiology
- NeuroDegenerative Disorders
- NeuroTrama (spine and brain)
- Neuro-rehabilitation

**Held at  
the Metro Toronto  
Convention Centre**

For more information visit  
[www.worldbrainmapping.org](http://www.worldbrainmapping.org)

The 2012 Congress will provide networking opportunities, exhibitors, talks from CEOs and Industry leaders, Practical sessions, Workshops, numerous focused breakout sessions, and Black Tie Gala (with honorary guests). CME may be provided by AANS

**Early Bird registration  
opening soon.**

*Don't wait to be a part of this  
remarkable scientific event!*

The program is endorsed by:  
Brain Mapping Foundation  
National Center Nano-Bio-Electronics (NCNBE)  
Ontario Brain Institute  
Canadian Government  
U.S. Government Agencies  
Industry leaders  
Prominent Universities
